**SAGINAW COUNTY HEALTH DEPARTMENT
RESUMES SERVICES FOR BUILDING CONSTRUCTION**

(SAGINAW) – On Thursday, May 7th, the Saginaw County Health Department’s Environmental Health Division will be available for services related to building construction. This change is the result of Governor Whitmer allowing residential and commercial construction to resume, in addition to work traditionally performed outdoors. As the Saginaw County Health Department’s offices still remain closed to the public until at least May 15th due to the Governor’s Stay Home Stay Safe Order, residents should continue doing their part in helping to prevent the spread of COVID-19. This should be done by completing applications and asking questions by phone, fax, e-mail, or by dropping off applications at the Health Department’s drop box located near the east entrance to the building.

Environmental Health Services can be reached at:
(989) 758-3686
eh@saginawcounty.com

Permit information can be found at:
<https://saginawpublichealth.org/programs-services/environmental-health/>.

Saginaw County appreciates the understanding and patience of its residents as we all work through this changing situation together. For updates regarding COVID-19, please visit <https://saginawpublichealth.org/coronavirus/> or follow the Saginaw County Health Department on Facebook.
