ServSafe training programs have been recognized and accepted by more federal, state and local jurisdictions than any other food safety education and training program for nearly 40 years.

ServSafe was developed by the National Restaurant Association, and is a respected training and education program throughout the United States.

The *Michigan Food Law* requires all food service establishments employ full-time managers who have earned state-approved certification and can demonstrate a working knowledge of food safety, food sanitation and the concepts and principles of HACCP. Regulation 570 was adopted 10-2-09 to supplement the requirements of the Michigan Food Law. Since April 2, 2010, any food service establishment operating without a certified food safety manager is in violation of the Michigan Food Law and will be subject to enforcement procedures.
