

HEALTH AND Community CONNECTED

SAGINAW COUNTY
RESIDENTS 50 YEARS
OF AGE AND OLDER
are invited to get a COVID-19
vaccine right in your own
neighborhood!

To schedule an appointment,
call the church nearest you.

We understand some people may be concerned about getting vaccinated. The Health & Community Connected is a group of trusted health care providers and community organizations right here in Saginaw, dedicated to your safety and well-being. We believe there are many good reasons to get a vaccine:

- It's a safer way to build immunity to COVID-19
- It has been developed rapidly, thanks to years of previous research, and went through every required step in demonstrating safety and effectiveness
- People of color have had prominent roles in the vaccine's development
- It is our best hope for returning life to normal

FIRST DOSE:

Saturday, March 13 or Saturday, March 20 at:

St. Joseph Catholic Church

(in partnership with Covenant HealthCare)
